FINISHING CO. EARNED \$401,272

In Past Year Though Business Fell Flat for Three Months on Account of European War—Was Over \$160,000 More Than Earnings in 1914—Year Was Encouraging Though Business Was Under Unusual Conditions Because of War.

In the annual report to the stockholders of the United States Finishing company, which has just been circulated and is for the fiscal year ending June 30, 1915, President Henry B. Thompson calls attention to the fact that the certified earnings of the company for the year are \$401,272.23, as compared with earnings of \$232,444.44 in 1914 and loss of \$66,536.48 in 1913. The increase in earnings in a year has thus been \$168,427.79.

The increase in net assets in the year was \$268,976.96 as shown by a reduction in the deficiency account. The company was able to meet in full the second payment which came due on Sept. 14, 1915 under the terms of the offer to the bank creditors' committee. This payment was \$225,534.51.

In the year there was expended the sum of \$249,139.01 for repairs and \$34,221.51 for new machinery, with the result the president states that all the plants are in a better physical condition today than they were at this period last year, notably the steam plants.

Considering the unusual business conditions prevailing because of the European war, the year was encouraging, says President Thompson, as compared with the previous year.

During the past year, the company finished 197,160,100 yards, a decrease of 22,562,665 yards from the previous year, which was largely due to the falling off in business in November, December and January. In those months the effect of European war conditions was seen. The extraordinary fall in the price of cotton in August resulted in these dull months for the finishing company and the dyestuff question has also been a source of continual embarrassment as all German contracts were cancelled last August.

Two of the encouraging features that largely had their effect upon the profits of the year were the improved class of work that has been secured for the Pawtucket branch and the decreased expenses of operation in all the plants, and notably at the Silver Spring branch.

GOVERNOR MAY SUSPEND ALL GAME LAWS.

Given 'This Power' in Case of Continued Drought.

The changes made in the laws affecting fish and game by the last general assembly were less in number than in many recent years, but they were quite drastic in nature in some cases. One of the most important is the act giving to the governor the power in case of continued drought to suspend all game laws and no matter at what season of the year the drought occurs, the hunting season will be closed.

This act is chapter 218 of the statutes and reads as follows:

"The governor may, when he shall consider that extraordinary precautions are necessary to prevent fires in the woodland of the state, proclaim a season of drought, during which the hunting season shall be suspended and all provisions of the law relating to a close season shall be in force for all kinds of game."

This is something all hunters should remember as it would materially affect them should the occasion for its use arise.

No person is allowed to kill more than five rabbits in any day, nor more than 25 in any one season, except that there is no limit to the number of Belgian or German hares that may be killed.

The law regarding the killing of deer is materially modified and reads as follows:

The owner of real estate, or the lessee of land leased for agricultural purposes for a period of not less than one year, or any member of his family or bona fide employee with the permission of such owner or lessee, may kill with a shotgun or capture any deer, buck, doe or fawn on land owned or leased by him.

"Any deer killed or taken pursuant to the provisions of this act shall be the property of the owner or lessee of the land, provided the person who shall kill or take such deer, within 24 hours thereafter, report the same to the commissioner of fisheries and game."

The penalty for not reporting such cases is fixed at not more than \$100 fine or 60 days in jail or both.

The act previously provided regarding the offering of bounties by towns for the killing of wild animals was amended to read that any town may offer a bounty of not more than \$5 for the killing of any wildcat, except a bounty of not to exceed \$1 for the killing of any skunk, fox, weasel, woodchuck, wild beaver, or wild German hare, the bounty to be paid from the surplus arising from the dog licenses during the previous year.

The closed season for raccoons is established by Chapter 130, which is as follows:

The closed season for raccoons shall be from March 1 to Sept. 1, inclusive. A fine of \$7 or imprisonment for 30 days or both is fixed for the violation of this act. The act in chapter 130 of the public acts provides for the offering of a bounty for raccoons as follows:

Chapter 274 is an important and long one. It authorizes the breeding of wild fowl and deer under certain restrictions and the sale of the same by such licensed breeders. A fee of \$2 is required of each person who wishes a license to breed, propagate or sell wild fowl, pheasants or deer. Licenses are provided by the commissioner or other appropriate markers for all such wild fowl or deer and such tag or marker shall be on all boxes or crates containing such wild fowl or deer.

This is an important act as it makes it possible for persons to make and keep a preserve for wild fowl or deer and to sell the same regardless of the game laws, provided they have a suitable license and comply with the provisions of this act. The act in several places "any person, association or corporation" and may result in the breeding of such wild fowl and deer in a large scale within the state.

The pamphlets received by Town Clerk C. S. Holbrook contain not only the new laws but all of those passed heretofore and make up a very interesting book for all hunters and fishers.

Y. M. C. A. CLASSES.

Instructors Secured for Architectural Drawing and Salesmanship.

The educational committee of the Y. M. C. A., of which J. C. Macpherson is chairman, has arranged to conduct a class in architectural drawing during the fall and winter months and already several men have signified their intention of joining the class.

One committee has been exceedingly fortunate in securing the services of Arthur M. Thompson of the firm of Cudworth, Woodworth & Thompson as instructor in this class. The success of the class. A rally of all men interested will be held next week at the Y. M. C. A. building.

Several applications have been received for the class in salesmanship, which opens next week Friday at 7:30 p. m., and all men who are interested in sales business are invited to attend this initial lecture, which will be illustrated on the blackboard. The regular meeting night for this class will probably be Tuesday, L. M. Crandall, who so successfully taught this class last year, has been secured again for this season.

SAGE AND SULPHUR

DARKENS GRAY HAIR

Brush this through faded, lifeless locks and they become dark, glossy, youthful.

Hair that loses its color and lustre, or when it fades turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Worcester.—It is stated that 11 of the young people of Milford, who were in the "Ranch" when it was presented in April, 1912, are now married, and two others are engaged.
